TrapTester User Meetings in London and Aberdeen

Badleys are pleased to announce that we will host TrapTester user meetings at city centre locations in both London (Monday October 13) and Aberdeen (Monday November 3rd) later this year. Attendance is free for both existing and prospective clients on a first-come, first-serve basis. If you would like to register your interest please [contact us](#). Further information can be found [here](#). Join us for:

- **What's new in TrapTester:** Introduction to the upcoming major new release, T7
- **Technical presentations:** by Badleys, company representatives, universities...
- **User tips:** Best practice structural interpretation
- **Meet the Geek:** software development forum

IN THIS ISSUE

- **User meetings announced**
- **Technical presentations at Normal Faults meeting London**
- **Dave Quinn at the EAGE**

BADLEYS CALENDAR

EAGE annual meeting

16 - 19 June
Amsterdam
Netherlands

Dave Quinn will be available for meetings as well as presenting at the conference. See this newsletter for further details and the [EAGE website](#) for information on the conference.

Geometry and Growth of Normal Faults

23 - 25 June 2014
London, UK

Badleys is sponsoring this upcoming conference celebrating the 25th anniversary of the Geological Society's 1989 'Geometry of Normal Faults' conference. The conference is in memory of Juan Watterson, one of the pre-eminent scientists in the field of 3-D fault analysis and modelling, and covers the full range of technical issues associated with the growth of normal faults, together with their practical applications.

More info can be found on the conference [website](#).

London User Meeting

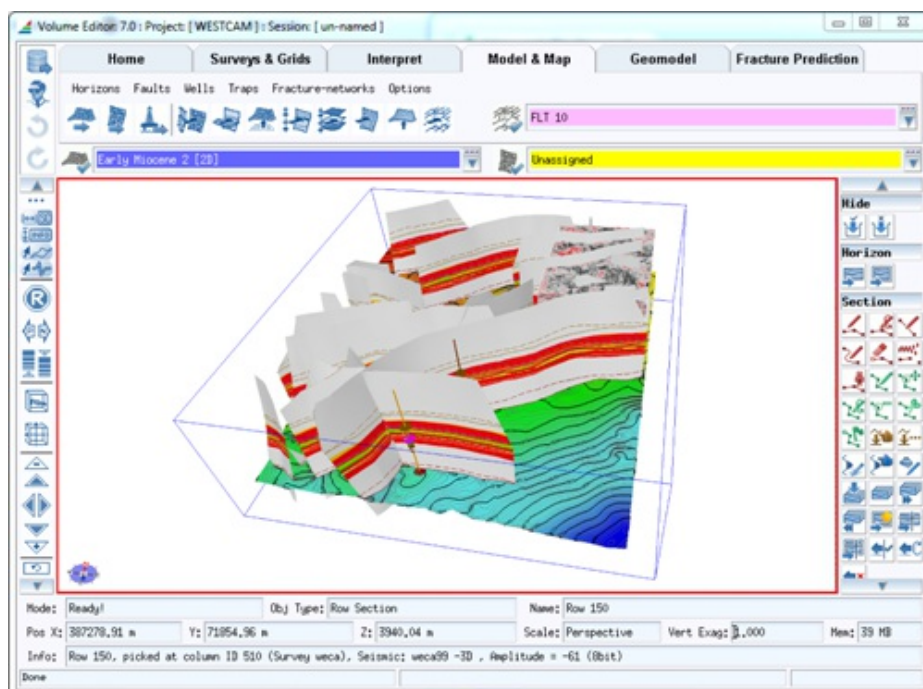

3 October
London
UK

User meeting announcement. See this newsletter for further details.

SEG Denver 2014

26 - 31 October
Denver
USA

Badleys will be exhibiting at the SEG to be held in Denver, USA. More details to follow in future

Technical presentations at Geometry and Growth of Normal Faults conference, London June 23 - 25

Badleys will have a strong technical presence at the upcoming Geometry and Growth of Normal Faults conference, to be held at Burlington House (the home of the Geological Society of London) in Piccadilly. This celebrates the 25th anniversary of the Geological Society's 1989 'Geometry of Normal Faults' conference and is in memory of Juan Watterson, one of the pre-eminent scientists in the field of 3-D fault analysis and modelling. Over three days (June 23 - 25th) the full range of technical issues associated with the growth of normal faults will be covered, together with their practical applications. Badleys are also sponsoring this event. Registration is still open and can be accessed [here](#).

Graham Yielding: The Geometry of Branchlines. *Monday 11:50*

Alan Roberts: Old Concepts in New Areas, Normal Fault Interaction on the Utsira High and Unexpected Prospectivity in The North Sea. *Tuesday 11:25.*

Dave Quinn: The Influence of Pre-Existing Rift Fabric on Subsequent Fault Array Evolution; an Example from the Horda Platform, Norwegian North Sea. *Wednesday 15:40.*

Dave Quinn at the EAGE Amsterdam, June 16 - 19

Dave will be at the upcoming 76th Annual EAGE conference and exhibition in Amsterdam. In addition to speaking at the event (details below) he is available to meet with clients as well as those interested in hearing more about Badleys products and services during the week. Please feel free to **contact Dave** directly to arrange a meeting.

Presentation: A Geomechanical Approach to Predicting Fracture Behaviour - An Example from the Gorm field, Danish North Sea. *Wednesday 15:30, Room 104.*
