T7 User Meeting Houston, Registration & Agenda

This free-to-attend forum will take place in the Summit room of the Royal Sonesta Hotel Galleria ([map](#)) on Thursday May 28 and is a must for all current and prospective TrapTester/T7 users. Reaction has been very positive to our previous announcements, with an impressive delegate list of Houston's top structural geologists registered, some of whom have agreed to present an insight into how they use the TrapTester/T7 suite in their company workflow. We expect the meeting to be both enlightening and lively! Food and refreshments will be provided throughout the day, with a selection of wines and craft beers to fuel the closing discussion. An overview of the day's events can be found [here](#).

Registration is now open and we invite you to [register here](#) at your convenience to ensure your place and let us know about any dietary requirements you may have.

Badleys to exhibit at AAPG Denver & IPA Jakarta

Badleys will have a strong presence at the AAPG ACE, held in Denver this year between May 31st and June 3rd. Come see us at booth #1845 to discuss all things structural and our leading products, T7 and OCTek, as well as our latest project OCTek Seismic (performed in collaboration with ION Geophysical). We invite you to drop by at your convenience, but should you wish to book a dedicated demo slot then simply [contact us](#). We will present several papers at the Technical Conference, details to follow in the May Newsletter.

IPA Jakarta will take place on May 21st and 22nd. Badleys Technical Director Brett Freeman will join our agents PetroPro for the exhibition at booth #A14c, facing the International Pavilion (floor plan available [here](#)). If you would like to book an appointment please [contact us](#).

BADLEYS CALENDAR

Fault-Seal & TrapTester/T7 Courses
18-22 May
Lincolnshire
UK

Badleys are pleased to offer our popular public Fault Seal and TrapTester/T7 courses at our office in Lincolnshire. Further details are available in this new sletter. To register your interest please [contact us](#).

39th IPA Exhibition & Conference
20-22 May
Jakarta
Indonesia

Badleys will demo our TrapTester/T7 product range at the exhibition. Further details are available in this newsletter. Visit the conference [website](#) for more info. To book a demo or register your interest please [contact us](#).

T7 User Meeting Houston
28 May
Houston
USA

Free-to-attend User Group Meeting to take place in Houston on May 28th at the Royal Sonesta Hotel Galleria (more details in this new sletter). If you would like to know more or register your interest, please [contact us](#).

AAPG Denver 2015
31 May - 3 June
Denver
USA

Badleys will have a strong presence at this event. We hope to see you at one of our many presentations in the Technical Conference and of course in the Exhibition Hall at booth #1845. More details in this and future new sletters. Visit the conference [website](#) for more info.

Badleys in-house training courses 2015

We would like to draw your attention to our annual in-house training courses, which take place on **18th-22nd of May**. If you are new to Fault-Seal Analysis and TrapTester/T7, or simply want to refresh your skills, there are still places available to join us here in Lincolnshire.

Fault-Seal Analysis (18-19 May)

This two-day theory based course will take place on **18 & 19 May**, and is regarded by many explorationists as the industry standard training course on methods and techniques for evaluating sealing faults. The emphasis is placed on the application of an objective methodology to the analysis of sub-surface data (seismic interpretation and wells). The course is suitable for geologists, geophysicists and reservoir engineers. All sessions are composed of practical sessions and lectures.

Introduction to TrapTester/T7 (20-21-22 May)

The popular three-day TrapTester/T7 training course will take place on **20-21-22 May**, and has been revised and updated for 2015 to incorporate the new functionality of the T7 system. The course develops and expands the most frequently used workflows leading to fault seal analysis and column height prediction. It is suitable for geologists who have no previous experience of TrapTester/T7 and also would be a perfect refresher for those who have not used TrapTester for a while, or wish to familiarise themselves with the new system.

In addition to the primary focus, the course covers the key factors that influence any fault seal analysis, namely fault interpretation and framework modelling. Concepts/practices covered include interpreting faults and horizons in 3D seismic, derivation of a geologically robust three dimensional faulted framework model, structural quality control, geometric seal analysis, integration of well data, the SGR method, fault seal calibration and geomechanical risk factors.

If you wish to register for one/both course(s), please **contact us** or phone +44 (0) 1790 753472. Visit our **website** for more information on these and other courses on offer.

EAGE Madrid 2015

1 - 4 June
Madrid
Spain

Badleys will present in the "Fault and Fracture Characterization" section of Technical Conference. More details in the next new letter.

Visit the conference **website** for more info.

Fault & Top Seals 2015

20 - 24 September
Almeria
Spain

Badleys are an event sponsor and our Technical Director Graham Yielding is a convener. More details to follow in future new letters.

Call for abstracts closes May 15.

Registration is now open.

Visit the conference **website** for more info.

8th Petroleum Geology of NWEurope

28 - 30 September
London
UK

Organised jointly by the Geological Society of London, the Petroleum Exploration Society of Great Britain (PESGB) and the Energy Institute (E) and held at the QEII centre Westminster. Badleys will present at the conference. Details to follow in future new letters.

Visit the conference **website** for more info.

SEG New Orleans 2015

18 - 22 October
New Orleans
USA

Badleys will have a central location in the exhibition hall. More details to follow in future new letters.

Visit the **SEG website** for more info.

The Geology of Geomechanics

28 - 29 October
London
UK

Badleys will sponsor this event, to be held at the Geology Society of London's Burlington House. Call for abstracts is now open.

Visit the **conference website** for more info.
